

Save the date for our Carers Week events

Carers Week takes place from 9 June to 15 June - and we're marking it by hosting events across the borough. Come along and find out about the range of support that's available to you, including information about assistive technology, falls prevention, carers groups, learning disability, autism and dementia support and advice regarding finances.

No need to book, each event is open to everyone, just turn up on the day.
