

We're encouraging all parents to

Think Pharmacy First

Earache
(Children
aged 1 to 17
years)

Did you know that community pharmacies can now offer clinical appointments with medication available (if required) for **five clinical conditions** particularly relevant to school age children?

- Ear ache (children aged 1-17)
- Sore throat (over 5s)
- Infected insect bites (over 1s)
- Impetigo (over 1s)
- Sinusitis (over 12s)

GP practices are busy and making an appointment with them is not always necessary!

When your child is ill with any of these conditions, head straight to your a local community pharmacy where you can have a consultation with a trained clinical professional and receive advice, guidance and even medication if it's needed. Lets get your child on the road to recovery as soon as possible.

**Infected Insect Bite
or Impetigo**
(Children and adults
age 1 and over)

Sore throat
(Children
and adults
age 5 and up)

The majority of Frimley Health and Care community pharmacies offer the Pharmacy First service.

Remember – if your child has an ear ache, sore throat, impetigo symptoms or a suspected infected insect bite think **Pharmacy First**.
